they say that he will require till June 1913 to complete his College Course and that he should then be allowed one year in the testing Deptt of the General Electric Company to fix his ideas and further his development therefore Mr. N. Narasimhiengar will have to stay in America till the end of June 1914 to complete his Studies He however asks for an extension of his Scholarship till the end of October 1914 The Govt supports his request

2 No money is available out of the Jamsetji Tata Scholarship fund till the end of December 1912.

HW 13 14/7/12

3 If in view of the very good reports made in regard to this candidate it is intended to help him to undergo the more complete and satisfactory course recommended, it can be done by reserving for him, one of the Scholarships that will become

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE,

No 6187 Enc 3
427

Bangalore 1st January 1912

February

From

The *Inspector General of Education in Mysore*

To C S Balasundaram Iyer, Esq , B A ,
Offg Secretary to the Government of H H the Maharaja
of Mysore , General and Revenue Departments, Bangalore

Sir

I have the honour to forward herewith a copy of an application dated the 26th December 1911 from Mr N Narasimhaiengar, B A , praying for extension of his Damodar Das Scholarship for another two years to enable him to complete the course of Bachelor of Electrical Engineering and to have a year's practical experience at the General Electric Co's works in New York, with copies of testimonials given to him by the President and the Professor of Union College, Schenectady, New York, U S A

Mr Narasimhaiengar was granted a Damodar Das Scholarship of £200 per annum for two years by Government Order No 3010-7/Edn 297-08-50 dated the 24th September 1909 and No 2335-9/Edn 297-09-34 dated the 8th September 1910 The term of the scholarship will be over by 1st November 1912 It will be observed from the testimonials given to him by the President of the Union College that he has been doing very well Under these circumstances I request that Government may be pleased to sanction the extension of scholarship prayed for by him for two years more with effect from 1st November1912

I have the honour to be,
S i r,
Your most obedient servant,

Assistant to the Inspector General
For Inspector General

Ex G Ed 216 11-1

To

The Educational Secretary
to the Government of His Highness
the Maharaja of Mysore

Dear Sir,

1 The two-year Darodar Das Scholarship which the Mysore Government kindly granted me, in their Proceedings No 3010-7/Edn 297-08-50 dated the 24th September 1909, to enable me to study Electrical Engineering at Union College, ends on the 1st of November 1912, but as the enclosed references will show, I will only have completed my junior-year at the college by that time It is now my request that you will kindly recommend me to the Government for an extension of the scholarship for two years so that I may be able to complete the course of Bachelor of Electrical Engineering and to have a year's practical experience at the General Electrical Co's Works in this City

2 I need hardly say that the very purpose of this scholarship will be defeated if I cannot avail myself of the special facilities for practical experience that the General Electric Co offers to graduate students in Electrical Engineering

3 As this is only a case of an extension of scholarship, I hope you will be able to place the matter before the Government immediately and communicate their decision to me before the end of the college year in next June, so that if they should find it inconvenient to show me any further favour I may be able to make arrangements during the summer-vacation to work my way through the college

4 Please allow me to assure you that it will always be my earnest endeavour to use to the best advantage the opportunities which the Government have and may be pleased to extend to me

5 Trusting that the matter will promptly receive your kind

attention

I remain,

Sir,

Respectfully yours,

26th December 1911 (Sd) N Narasimhaiengar,

To

The Educational Secretary
to the Government of Mysore

My dear Sir

I It gives me pleasure to record my satisfaction with the progress of Mr N N Iengar during the past two years at Union College He has made excellent use of his opportunities and has taken a high stand in his studies He has won the esteem of the Faculty and the good will of the students I consider him a young man of unusual promise and I sincerely hope that he may be granted an extension of time This would enable him to secure not only a Bachellor's Degree but also in all probability a Master's Degree in Electrical Science His last year's work could be done in connection with a practical experience at the General Electric Works

V I regard these Government Scholarships as an important element in the cultivation of a better understanding and a more cordial feeling among different nations It is a practice to be encouraged and we should be very glad if we could secure other young men of Mr Iyengar's quality

Believe me, my dear sir, with high regard,

Faithfully yours,

(Sd) Charles Aldande Richmond

UNION COLLEGE

ELECTRICAL ENGINEERING DEPARTMENT

SCHENECTADY, N Y

Ec & Ed 216-11-1

December 22, 1911

To the Educational Secretary,
Government of Mysore.

Dear Sir

1 At the request of Mr N N Iengar, I am sending to you this report upon the work he has done in Union College

2 During his first year with us, he cleared up all required work of the first two years of the engineering curriculum in which he had not received credit on his arrival by presenting his credentials This year he is finishing the Third year work He will require till June 1913 to complete his college course He should then be allowed one year in the Testing Department of the General Electric Co to fix his ideas and further his development It is an invaluable experience and I highly recommend it to all of my men who are capable enough to qualify therefor

3 Some of the subjects taken by Mr Iengar are listed below and his work is invariably of a high order, probably averaging above 90%

Calculus
Analytical Geometry
Engineering Mathematics
Descriptive Geometry
Surveying
Mechanical Drawing
Applied Mechanics
Steam Engines
Electric Lighting
Electrical Laboratory
Hydraulics
Direct Current Circuits and Apparatus

4 Besides continuing several of these subjects during the coming term, he will take up

Alternating Current Curcuits and Apparatus
Physical Chemistry (Includes Electrochemistry),

It is a pleasure to be able to add that Mr Dengar is capable, studious and energetic and that he commands our respect both as a student and as a man

Very respectfully yours,

(Sd) O J Ferguson
